

Usher — User Stories

Usher is an event workforce management platform connecting **Event Providers** with **Talent** (ushers, hosts, promoters), managed by a **Platform Admin**.

Table of Contents

- Authentication & Onboarding
 - Talent User Stories
 - Provider User Stories
 - Admin User Stories
 - Shared / Cross-Role Stories
-

Authentication & Onboarding

US-001: Register as Talent or Provider

As a new user, **I want to** register with my email, password, and role (talent or provider), **So that** I can access the platform and start using its features.

Acceptance Criteria:

- User selects role: Talent or Provider
 - Email must be unique
 - An empty profile is created upon registration
 - User is redirected to their role-specific dashboard
-

US-002: Login

As a registered user, **I want to** log in with my email and password, **So that** I can access my account.

Acceptance Criteria:

- Valid credentials redirect to role-specific dashboard (Talent → `/talent/dashboard`, Provider → `/provider/dashboard`, Admin → `/admin/dashboard`)
 - Invalid credentials show an error message
 - Blocked users see "Your account has been blocked" error
 - Session persists across page refreshes (localStorage)
-

US-003: Logout

As a logged-in user, **I want to** sign out of my account, **So that** I can securely end my session.

Acceptance Criteria:

- Auth token and session data are cleared
 - User is redirected to the login page
-

Talent User Stories

US-100: View Dashboard

As a talent, I want to see a dashboard with my key stats and recent activity, **So that** I can quickly understand my standing on the platform.

Acceptance Criteria:

- Shows reliability score, rating average, completed events count
 - Displays recent/upcoming events
-

US-101: Edit My Profile

As a talent, I want to edit my personal and professional information, **So that** providers can learn about me and my skills.

Acceptance Criteria:

- Can edit: full name, city, experience years
 - Can select multiple languages from a predefined list
 - Can select multiple event categories
 - Changes save with a success confirmation
 - Profile shows reliability score, rating average, verified badge
-

US-102: Upload Profile Picture

As a talent, I want to upload and change my profile photo, **So that** providers can see my appearance.

Acceptance Criteria:

- Hovering over avatar shows a camera icon overlay
 - Clicking opens a file picker (images only)
 - Selected image previews immediately
 - Photo is saved when user clicks "Save Changes"
-

US-103: Browse Available Jobs

As a talent, I want to browse open event jobs with filters, **So that** I can find opportunities that match my skills.

Acceptance Criteria:

- Shows all open events with category, location, date, budget
 - Can filter by category and city
 - Respects application deadline — cannot apply after deadline
 - Shows event details (dress code, notes, required count, gender preference)
-

US-104: Apply to an Event

As a talent, **I want to** apply to an open event, **So that** I can get hired for the job.

Acceptance Criteria:

- Can apply if event is open and deadline has not passed
 - Cannot apply twice to the same event
 - Application starts in `pending` status
 - Apply button is disabled/dimmed after the deadline
-

US-105: Track My Applications & Events

As a talent, **I want to** see all my event applications and their statuses, **So that** I can track my hiring progress.

Acceptance Criteria:

- Shows all applications with status badges (pending, accepted, rejected, excused)
 - Can filter by: All, Upcoming, Past
 - Shows referral info if application was via referral
 - Each card links to the event detail page
-

US-106: View My Event History on Profile

As a talent, **I want to** see my full event history on my profile page, **So that** I can review my work record.

Acceptance Criteria:

- Profile page shows "Event History" section with count
 - Each event shows: title, date, location, attendance status (Attended/No Show/Hired), review rating
 - Sorted by date
-

US-107: Excuse from an Accepted Event

As a talent, **I want to** excuse myself from an event I was accepted to, **So that** I can withdraw if I'm no longer available.

Acceptance Criteria:

- "Excuse" button appears only on accepted upcoming events
 - Confirmation modal warns about late penalty if within 3 days of deadline
 - If excused **more than 3 days** before deadline → no penalty
 - If excused **within 3 days** of deadline → counts as a **late excuse**
 - Application status changes to `excused`
 - Talent is removed from event's hired list
-

US-108: Late Excuse Penalty System

As a talent, **I want to** understand the penalty for late excuses, **So that** I am aware of the consequences and can maintain my reputation.

Acceptance Criteria:

- Late excuse counter tracks how many times talent excused within 3 days of deadline
 - At **5 late excuses** → a red "⚠ Late Excuses" badge appears on profile
 - Badge is visible to the talent on their own profile (with X/5 progress tracker)
 - Badge is visible to providers when viewing the talent
 - Counter resets to 0 after attending **5 consecutive events** without late excusing
 - Consecutive good event counter tracks progress toward clearing the badge
-

US-109: Refer Another Talent to an Event

As a talent, **I want to** refer other talents to an event I found, **So that** I can help my colleagues find work.

Acceptance Criteria:

- Can refer a talent to an event
 - Referral shows on the applicant's card ("Referred by [Name]")
 - Provider sees the referral info when reviewing applicants
 - Cannot refer someone who is already accepted or rejected for that event
-

Provider User Stories

US-200: View Dashboard

As a provider, **I want to** see a dashboard with my event stats and activity, **So that** I can manage my operations at a glance.

Acceptance Criteria:

- Shows total events, open events, hired talent count
 - Displays recent events with status
-

US-201: Edit Company Profile

As a provider, **I want to** edit my company information, **So that** talents know about my company.

Acceptance Criteria:

- Can edit: company name, description, location, phone, website
 - Changes save with success confirmation
-

US-202: Upload Company Logo

As a provider, **I want to** upload and change my company logo, **So that** my brand is visible on the platform.

Acceptance Criteria:

- Same hover-to-reveal camera overlay as talent
 - File picker accepts images
 - Preview shows immediately, saved on "Save Changes"
-

US-203: Create a New Event

As a provider, I want to create a new event with all required details, **So that** talents can apply and I can hire staff.

Acceptance Criteria:

- Form fields: title, category, event date, **application deadline**, start/end time, location, required count, gender preference, budget, dress code, notes
 - Event starts in
 - open status
 - Event appears in talent job listings after creation
-

US-204: Set Application Deadline

As a provider, I want to set a deadline for event applications, **So that** applications close at an appropriate time.

Acceptance Criteria:

- Deadline is a required field when creating an event
 - After the deadline passes:
 - Talents see the apply button as dimmed/disabled
 - No new applications can be submitted
 - Provider can still manage existing applicants after the deadline
-

US-205: View & Manage Event Applicants

As a provider, I want to view all applicants for my event and accept or reject them, **So that** I can build my event team.

Acceptance Criteria:

- Shows all applicants with their profile info, rating, reliability score, verified badge
 - Shows referral info ("Referred by [Name]") if applicable
 - Shows late excuse badge if talent has 5+ late excuses
 - Can accept or reject each applicant
 - Accepted talents are added to `hiredTalents` list
-

US-206: Close Event Applications

As a provider, I want to close my event so no more applications can come in, **So that** I can finalize my team.

Acceptance Criteria:

- Provider can change event status (e.g., to Confirmed)
 - Once closed or past deadline, no new applications appear
-

US-207: Mark Attendance

As a provider, I want to mark talent attendance for my event, **So that** I can track who showed up.

Acceptance Criteria:

- Can mark each hired talent as: Present, Absent, or Late

- Attendance button is dimmed until the deadline passes or event is closed
 - Attendance records are stored with check-in timestamps
-

US-208: Review & Rate Talent

As a provider, **I want to** rate and review talents after an event, **So that** future providers can see their track record.

Acceptance Criteria:

- Can submit a rating (1-5 stars) and optional comment
 - Reviews are linked to the event and visible on the talent's profile
-

US-209: Search Talent Directory

As a provider, **I want to** search and browse talents by filters, **So that** I can find the right people for my events.

Acceptance Criteria:

- Can filter by: city, event category, experience years
 - Shows talent cards with photo, name, city, rating, reliability, verified badge
 - Talent names are clickable → opens talent detail page
-

US-210: View Talent Profile & History

As a provider, **I want to** click on a talent's name to see their full profile and event history, **So that** I can evaluate them before hiring.

Acceptance Criteria:

- Read-only profile page shows: photo, name, city, experience, languages, categories, portfolio
 - Shows badges: rating, reliability, verified, late excuses (if 5+)
 - Shows full event history with attendance status and ratings
 - Shows all reviews received
 - Accessible from: talent search page, event applicant list (talent names are clickable links)
-

US-211: Direct Book a Talent

As a provider, **I want to** directly book a talent from the search page, **So that** I can proactively hire talent I like without waiting for them to apply.

Acceptance Criteria:

- "Direct Book" creates an application with `isDirect: true`
 - Application is auto-accepted
 - Talent sees it with a "Direct Booking" badge
-

Admin User Stories

US-300: View Admin Dashboard

As an admin, I want to see a platform-wide overview dashboard, **So that** I can monitor the health of the platform.

Acceptance Criteria:

- Shows total counts: users, talents, providers, events
 - Shows event status breakdown (open, completed, cancelled)
 - Shows count of flagged talents (5+ late excuses)
 - Lists recent events with status
 - Shows top rated talents leaderboard
 - Flagged talents section with excuse counts and progress
-

US-301: View & Manage All Users

As an admin, I want to view all users and perform management actions, **So that** I can maintain platform quality and enforce policies.

Acceptance Criteria:

- Lists all users with profile info, role badge, stats
 - Can search by name or email
 - Can filter by role: All, Talent, Provider, Admin, Blocked
 - Shows blocked count in the Blocked tab
-

US-302: Block a User

As an admin, I want to block a talent or provider, **So that** they can no longer access the platform.

Acceptance Criteria:

- Block button available for non-admin users
 - Confirmation modal with warning message
 - Blocked users cannot log in (see "account blocked" error)
 - Blocked users show a  Blocked badge and dimmed card
 - Admin cannot block other admins
-

US-303: Unblock a User

As an admin, I want to unblock a previously blocked user, **So that** they can access the platform again.

Acceptance Criteria:

- Unblock button visible for blocked users
 - Confirmation modal
 - User can log in again after unblocking
-

US-304: Verify / Unverify a User

As an admin, I want to verify or remove verification from a user, **So that** I can control which users have the verified badge.

Acceptance Criteria:

- Verify button for unverified users, Unverify for verified users
 - Confirmation modal for both actions
 - Verified badge (✓) appears/disappears on the user's profile
-

US-305: Reset Talent Late Excuses

As an admin, **I want to** reset a talent's late excuse counter, **So that** I can give them a clean slate after manual review.

Acceptance Criteria:

- "Reset Excuses" button appears only for talents with excuses > 0
 - Confirmation modal explaining the action
 - Resets both `lateExcuseCount` and `consecutiveGoodEvents` to 0
 - Late excuse badge disappears from talent profile
-

US-306: View & Manage All Events

As an admin, **I want to** view all platform events and change their status, **So that** I can intervene when needed.

Acceptance Criteria:

- Lists all events with provider name, category, status, location, date, hired count, budget, deadline
 - Can search events by title or location
 - Can filter by status: All, Open, Confirmed, Completed, Cancelled
 - Shows count per status in filter tabs
-

US-307: Change Event Status

As an admin, **I want to** change any event's status (Cancel, Reopen, Confirm, Complete), **So that** I can manage platform events as needed.

Acceptance Criteria:

- Status change buttons shown per event based on current status
 - Each action requires confirmation modal
 - Cancelled events appear with reduced opacity
 - Available transitions:
 - Cancel → any non-cancelled event
 - Reopen → any non-open event
 - Confirm → any non-confirmed event
 - Complete → any non-completed event
-

US-308: Delete an Event

As an admin, **I want to** permanently delete an event, **So that** I can remove inappropriate or test events.

Acceptance Criteria:

- Delete button on every event
- Confirmation modal with warning that all applications will be removed
- Event and its applications are permanently removed

 Shared / Cross-Role Stories

US-400: Role-Based Navigation

As a user, I want to see navigation links specific to my role, So that I only see features relevant to me.

Acceptance Criteria:

- **Talent sidebar:** Dashboard, My Profile, Browse Jobs, My Events
- **Provider sidebar:** Dashboard, Company Profile, My Events, Create Event, Search Talent
- **Admin sidebar:** Dashboard, Users, Events
- Mobile: bottom navigation bar with same links
- Desktop: left sidebar with logo and user info

US-401: Responsive Design

As a user, I want to use the platform on both desktop and mobile, So that I can access it from any device.

Acceptance Criteria:

- Sidebar collapses to hamburger menu on mobile
- Bottom navigation bar on mobile
- All pages are responsive (cards stack vertically on small screens)

US-402: Verified Badge System

As a talent, I want to earn a verified badge automatically when I meet criteria, So that my reliability is visibly recognized.

Acceptance Criteria:

- Auto-verified when talent completes enough events + maintains high rating
-  Verified badge shows on profile, applicant cards, and search results
- Admin can also manually verify/unverify

 Data Model Summary

Entity	Key Fields
User	email, role (admin/talent/provider), isVerified, isBlocked
TalentProfile	fullName, photo, city, languages, categories, experienceYears, reliabilityScore, ratingAverage, lateExcuseCount,

	consecutiveGoodEvents
ProviderProfile	companyName, logo, description, location, phone, website
Event	title, category, eventDate, applicationDeadline, location, requiredCount, genderPreference, budget, dressCode, status
Application	eventId, talentId, status (pending/accepted/rejected/excused), isDirect, referredBy
Attendance	eventId, talentId, status (present/absent/late), checkInTime
Review	eventId, reviewerId, reviewedUserId, rating, comment
Referral	eventId, referrerTalentId, referredTalentId, status

Usher — Software Requirements Specification (SRS)

Project Name: Usher — Event Workforce Management Platform **Version:** 1.0 **Date:** March 9, 2026 **Status:** Implemented (Frontend Prototype)

Table of Contents

- 1. Introduction
 - 2. System Overview
 - 3. Roles & Permissions
 - 4. Functional Requirements

 - 11. Glossary
-

1. Introduction

1.1 Purpose

This document specifies the functional and non-functional requirements for **Usher**, a web-based platform that connects event providers (companies organizing events) with talent (ushers, hosts, promoters, and event staff).

1.2 Scope

Usher supports three user roles: **Talent**, **Provider**, and **Admin**. The platform enables talent discovery, event job listing, application management, attendance tracking, performance reviews, and platform administration.

1.3 Intended Audience

- Development Team (Frontend & Backend Engineers)
- Product Managers
- QA Engineers
- UI/UX Designers
- Stakeholders

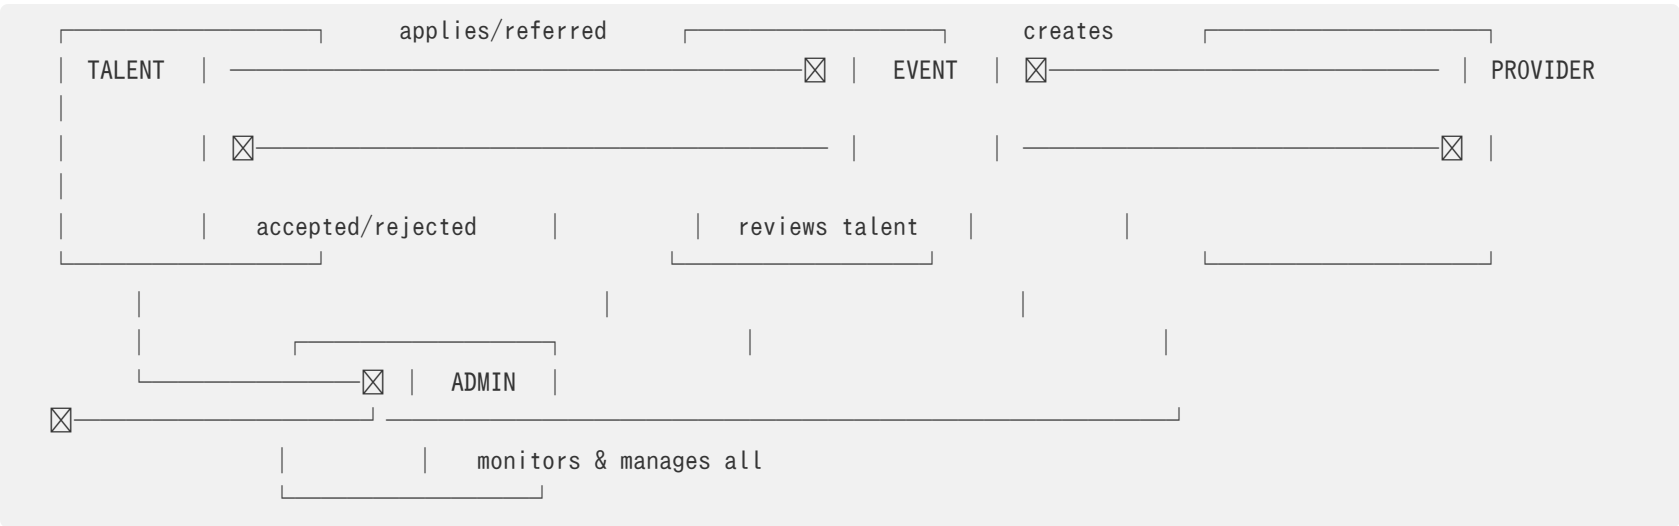

1.4 Definitions

Term	Definition
Talent	An individual who works at events (usher, host, promoter)
Provider	A company or individual who organizes events and hires talent
Event	A scheduled event that requires talent staff
Application	A talent's request to work at a specific event
Direct Booking	When a provider hires a talent directly without the talent applying
Referral	When a talent recommends another talent for an event
Late Excuse	Excusing from an accepted event within 3 days of the application deadline

2. System Overview

2.1 High-Level Description

Usher is a two-sided marketplace platform with the following core workflows:

2.2 Key Features Summary

1. User registration and authentication (Talent / Provider)
2. Profile management with photo upload
3. Event creation with application deadlines
4. Job browsing, applying, and referral system
5. Application review (accept/reject) by providers
6. Attendance tracking (present/absent/late)
7. Performance review and rating system
8. Event excuse system with late penalty tracking

- 9. Talent verification system
- 10. Full admin panel with user/event management powers

3. Roles & Permissions

3.1 Role Matrix

Action	Talent	Provider	Admin
Register/Login	✓	✓	✓
Edit own profile	✓	✓	✗
Upload profile photo/logo	✓	✓	✗
Browse open events	✓	✗	✗
Apply to events	✓	✗	✗
Excuse from accepted event	✓	✗	✗
Refer another talent	✓	✗	✗
View own event history	✓	✗	✗
Create events	✗	✓	✗
Set application deadline	✗	✓	✗
Accept/reject applicants	✗	✓	✗
Direct book talent	✗	✓	✗
Mark attendance	✗	✓	✗
Review/rate talent	✗	✓	✗

Search talent directory	✗	✓	✗
View talent profile & history	✗	✓	✗
View all users	✗	✗	✓
Block/unblock users	✗	✗	✓
Verify/unverify users	✗	✗	✓
Change event status	✗	✗	✓
Delete events	✗	✗	✓
Reset late excuses	✗	✗	✓
View platform analytics	✗	✗	✓

3.2 Access Control

- Each role has its own route group (`/talent/` , `/provider/` , `/admin/`)
- Layouts enforce role checks — unauthorized access redirects to `/login`
- Admin cannot be blocked by other admins

4. Functional Requirements

4.1 Authentication Module

ID	Requirement	Priority
FR-AUTH-01	System shall allow user registration with email, password, and role (talent/provider)	Must
FR-AUTH-02	System shall prevent duplicate email registration	Must
FR-AUTH-03	System shall authenticate users via email + password	Must
FR-AUTH-04	System shall persist authentication state across page refreshes	Must
FR-AUTH-05	System shall prevent blocked users from logging in with a descriptive error	Must

FR-AUTH-06	System shall redirect authenticated users to their role-specific dashboard	Must
FR-AUTH-07	System shall provide demo account quick-login buttons on the login page	Should

4.2 Talent Profile Management

ID	Requirement	Priority
FR-TP-01	Talent shall be able to edit: full name, city, experience years	Must
FR-TP-02	Talent shall be able to select multiple languages from a predefined list	Must
FR-TP-03	Talent shall be able to select multiple event categories they work in	Must
FR-TP-04	Talent shall be able to upload and change their profile photo	Should
FR-TP-05	Profile shall display: reliability score, rating average, verified badge, late excuse badge	Must
FR-TP-06	Profile shall display the talent's complete event history with attendance & review data	Must
FR-TP-07	System shall show late excuse progress (X/5 toward clearing badge) when applicable	Should

4.3 Provider Profile Management

ID	Requirement	Priority
FR-PP-01	Provider shall be able to edit: company name, description, location, phone, website	Must
FR-PP-02	Provider shall be able to upload and change their company logo	Should

4.4 Event Management

ID	Requirement	Priority
FR-EV-01	Provider shall be able to create an event with: title, category, event date, application deadline, start/end time, location, required talent count, gender preference, budget, dress code, notes	Must

FR-EV-02	Events shall have a status lifecycle: Open → Confirmed → Completed / Cancelled	Must
FR-EV-03	Provider shall be able to view all their events with status filtering	Must
FR-EV-04	Provider shall be able to view event details including all applicants	Must
FR-EV-05	System shall enforce application deadline — no new applications after deadline	Must

4.5 Application & Hiring Workflow

ID	Requirement	Priority
FR-APP-01	Talent shall be able to apply to open events before the deadline	Must
FR-APP-02	System shall prevent duplicate applications to the same event	Must
FR-APP-03	Provider shall be able to accept or reject each applicant	Must
FR-APP-04	Accepted talents shall be added to the event's <code>hiredTalents</code> list	Must
FR-APP-05	Provider shall be able to directly book a talent (auto-accepted, marked <code>isDirect</code>)	Should
FR-APP-06	Application status values: <code>pending</code> , <code>accepted</code> , <code>rejected</code> , <code>excused</code>	Must
FR-APP-07	System shall dim/disable the apply button after the application deadline	Must

4.6 Attendance & Reviews

ID	Requirement	Priority
FR-ATT-01	Provider shall be able to mark each hired talent as: Present, Absent, or Late	Must
FR-ATT-02	Attendance button shall be dimmed until the application deadline has passed or the event is closed	Must
FR-ATT-03	Provider shall be able to submit a rating (1-5) and optional comment for each talent	Must

FR-ATT-04	Reviews shall be visible on the talent's profile page	Must
FR-ATT-05	Marking attendance as Present or Late shall increment the talent's consecutive good events counter	Must

4.7 Excuse & Penalty System

ID	Requirement	Priority
FR-EXC-01	Talent shall be able to excuse from an accepted event that hasn't occurred yet	Must
FR-EXC-02	If excused >3 days before deadline → no penalty	Must
FR-EXC-03	If excused ≤3 days before deadline → increment <code>lateExcuseCount</code> , reset <code>consecutiveGoodEvents</code>	Must
FR-EXC-04	Excusing shall change application status to <code>excused</code> and remove talent from <code>hiredTalents</code>	Must
FR-EXC-05	System shall show a confirmation modal before excusing, with a warning if it will be a late excuse	Must
FR-EXC-06	At 5+ late excuses → display a red "Late Excuses" badge on talent profile	Must
FR-EXC-07	Badge shall be visible to: the talent, providers (on talent cards and detail page), and admins	Must
FR-EXC-08	After 5 consecutive attended events (Present or Late) without late excusing → reset <code>lateExcuseCount</code> to 0	Must
FR-EXC-09	Result modal shall show whether the excuse was late and the current count	Should

4.8 Referral System

ID	Requirement	Priority
FR-REF-01	Talent shall be able to refer another talent to an event	Should
FR-REF-02	Referral info shall be displayed on the applicant card ("Referred by [Name]")	Must

FR-REF-03	Cannot refer a talent who is already accepted or rejected for that event	Must
-----------	--	------

4.9 Talent Discovery (Provider)

ID	Requirement	Priority
FR-TD-01	Provider shall be able to search talents with filters: city, category, experience	Must
FR-TD-02	Talent names shall be clickable links to their detail page	Must
FR-TD-03	Talent detail page shall show: profile info, badges, languages, categories, portfolio, event history, reviews	Must
FR-TD-04	Talent detail page shall be accessible from both talent search and event applicant list	Must

4.10 Admin Panel

ID	Requirement	Priority
FR-ADM-01	Admin dashboard shall display: total users, talents, providers, events, open/completed events, flagged talents	Must
FR-ADM-02	Admin shall be able to view all users with search and role filtering	Must
FR-ADM-03	Admin shall be able to block/unblock any non-admin user	Must
FR-ADM-04	Admin shall be able to verify/unverify any user	Must
FR-ADM-05	Admin shall be able to reset a talent's late excuse counter	Must
FR-ADM-06	Admin shall be able to view all events with search and status filtering	Must
FR-ADM-07	Admin shall be able to change any event's status (Cancel, Reopen, Confirm, Complete)	Must
FR-ADM-08	Admin shall be able to permanently delete an event (and its applications)	Must

FR-ADM-09	All admin actions shall require confirmation via a modal dialog	Must
FR-ADM-10	Admin dashboard shall list flagged talents (5+ late excuses) with progress info	Should
FR-ADM-11	Admin dashboard shall show top-rated talents leaderboard	Should

4.11 Verification System

ID	Requirement	Priority
FR-VER-01	Talents meeting criteria (sufficient events + high rating) shall be auto-verified	Should
FR-VER-02	Verified badge (✔) shall display on: profile, applicant cards, search results	Must
FR-VER-03	Admin shall be able to manually override verification status	Must

5. Non-Functional Requirements

5.1 Performance

ID	Requirement
NFR-PERF-01	Pages shall load within 2 seconds on standard broadband
NFR-PERF-02	API calls shall simulate ≤300ms latency (production should target <500ms)
NFR-PERF-03	Lists shall support pagination to avoid loading entire datasets

5.2 Security

ID	Requirement
NFR-SEC-01	Passwords shall not be exposed in API responses

NFR-SEC-02	Route guards shall prevent unauthorized role access
NFR-SEC-03	Blocked users shall be denied authentication
NFR-SEC-04	Admin routes shall be inaccessible to talent and provider roles

5.3 Usability

ID	Requirement
NFR-USE-01	Application shall be fully responsive (mobile, tablet, desktop)
NFR-USE-02	Mobile devices shall use a bottom navigation bar
NFR-USE-03	Desktop shall use a left sidebar navigation
NFR-USE-04	All destructive actions shall require confirmation
NFR-USE-05	Success/error states shall provide visual feedback (badges, toasts)
NFR-USE-06	Loading states shall show skeleton animations

5.4 Reliability

ID	Requirement
NFR-REL-01	Session data shall persist across browser refreshes
NFR-REL-02	Application shall handle API errors gracefully with user-facing messages

5.5 Compatibility

ID	Requirement
NFR-COM-01	Application shall support latest versions of Chrome, Firefox, Safari,

	Edge
NFR-COM-02	Application shall work on iOS Safari and Android Chrome

6.2 Entity Schemas

User

Field	Type	Required	Description
_id	string	Yes	Unique identifier
email	string	Yes	Unique email address
password	string	Yes	Hashed password
role	enum	Yes	admin / talent / provider
isVerified	boolean	Yes	Account verification status
isBlocked	boolean	Yes	Account blocked status
createdAt	datetime	Yes	Registration timestamp

TalentProfile

Field	Type	Required	Description
_id	string	Yes	Unique identifier
userId	string	Yes	FK → User
fullName	string	Yes	Display name
photo	string	No	Profile photo URL or base64
city	string	Yes	City of residence
languages	string[]	Yes	Spoken languages
experienceYears	number	Yes	Years of experience
categories	string[]	Yes	Event categories the talent works in

refusedCategories	string[]	No	Categories the talent refuses
portfolioImages	string[]	No	Portfolio image URLs
availabilityDates	string[]	No	Available dates
reliabilityScore	number	Yes	0-100 reliability percentage
ratingAverage	number	Yes	Average rating (1-5)
totalRatings	number	Yes	Total number of ratings received
completedEventsCount	number	Yes	Total completed events
lateExcuseCount	number	Yes	Count of late excuses (resets at 5 consecutive good events)
consecutiveGoodEvents	number	Yes	Consecutive events attended without late excusing

ProviderProfile

Field	Type	Required	Description
_id	string	Yes	Unique identifier
userId	string	Yes	FK → User
companyName	string	Yes	Company name
logo	string	No	Company logo URL or base64
description	string	No	Company description
location	string	Yes	Company location
phone	string	No	Contact phone
website	string	No	Company website URL

Event

Field	Type	Required	Description
_id	string	Yes	Unique identifier
providerId	string	Yes	FK → ProviderProfile
title	string	Yes	Event title
category	string	Yes	Event category
eventDate	datetime	Yes	Date of the event
applicationDeadline	datetime	Yes	Last date to accept applications

startTime	string	Yes	Event start time
endTime	string	Yes	Event end time
location	string	Yes	Event venue/city
requiredCount	number	Yes	Number of talent needed
genderPreference	enum	Yes	male / female / any
budget	number	Yes	Payment budget (EGP)
dressCode	string	No	Dress code instructions
notes	string	No	Additional notes
status	enum	Yes	open / confirmed / completed / cancelled
hiredTalents	string[]	Yes	Array of hired talent IDs
createdAt	datetime	Yes	Creation timestamp

Application

Field	Type	Required	Description
_id	string	Yes	Unique identifier
eventId	string	Yes	FK → Event
talentId	string	Yes	FK → TalentProfile
status	enum	Yes	pending / accepted / rejected / excused
isDirect	boolean	Yes	Whether this was a direct booking by provider
referredBy	string	No	FK → TalentProfile (referrer)
appliedAt	datetime	Yes	Application timestamp

Attendance

Field	Type	Required	Description
_id	string	Yes	Unique identifier
eventId	string	Yes	FK → Event
talentId	string	Yes	FK → TalentProfile
status	enum	Yes	present / absent /

			late
checkInTime	datetime	No	Check-in timestamp
checkOutTime	datetime	No	Check-out timestamp

Review

Field	Type	Required	Description
_id	string	Yes	Unique identifier
eventId	string	Yes	FK → Event
reviewerId	string	Yes	FK → User (provider who wrote it)
reviewedUserId	string	Yes	FK → User (talent being reviewed)
rating	number	Yes	1-5 star rating
comment	string	No	Written feedback
createdAt	datetime	Yes	Review timestamp

Referral

Field	Type	Required	Description
_id	string	Yes	Unique identifier
eventId	string	Yes	FK → Event
referrerTalentId	string	Yes	FK → TalentProfile (who referred)
referredTalentId	string	Yes	FK → TalentProfile (who was referred)
status	enum	Yes	pending / accepted / declined
createdAt	datetime	Yes	Referral timestamp

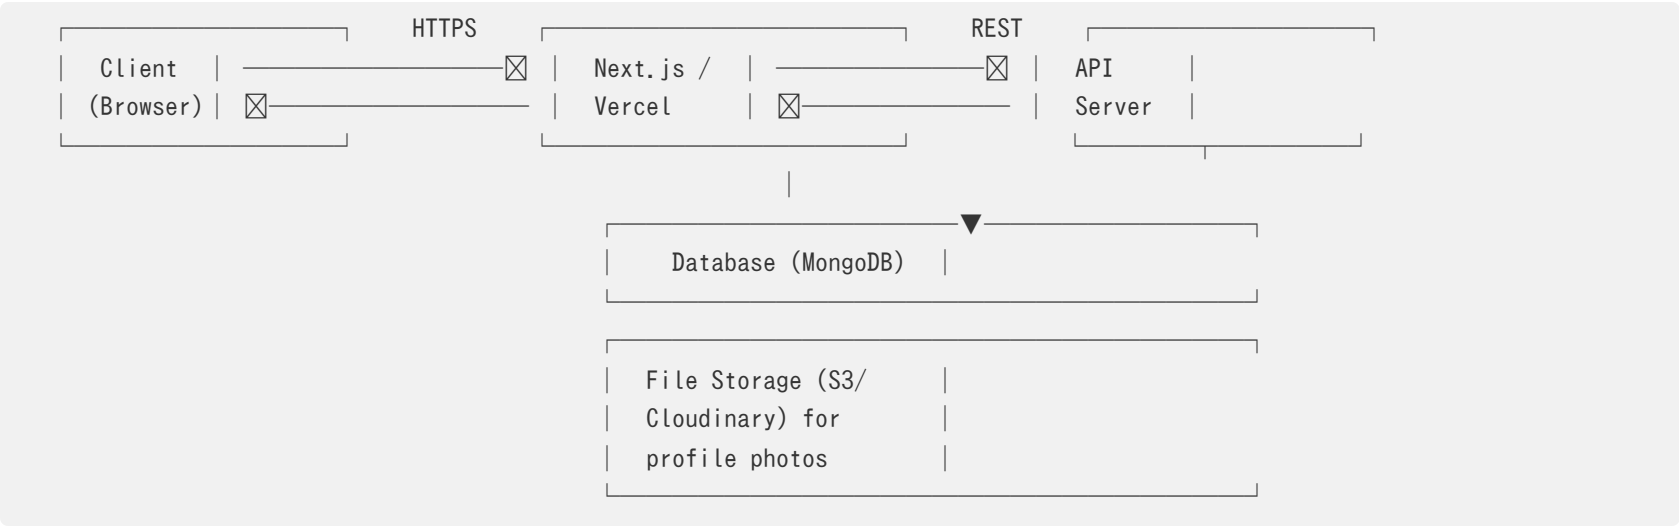

7. System Architecture

7.1 Current Implementation (Prototype)

7.2 Target Production Architecture

7.3 Tech Stack

Layer	Technology
Frontend Framework	Next.js 15 (App Router)
Language	TypeScript
Styling	Vanilla CSS (custom design system)
State Management	React Context (Auth) + Component State
Icons	Lucide React
Deployment Target	Vercel
Package Manager	npm

8. Business Rules

ID	Rule
BR-01	A talent cannot apply to the same event twice
BR-02	Applications are blocked after the event's <code>applicationDeadline</code> has passed
BR-03	Only <code>accepted</code> applications can be excused
BR-04	Excusing within 3 days of deadline counts as a "late excuse"
BR-05	At 5+ late excuses, a warning badge appears on the talent's profile
BR-06	The late excuse counter resets after 5 consecutive attended events (present/late)
BR-07	Attendance tracking (present/late/absent) increments the consecutive good events counter
BR-08	Consecutive good events counter resets when a late excuse occurs
BR-09	Admin cannot block other admin accounts
BR-10	Blocked users receive a specific error message when attempting to log in
BR-11	Deleting an event also deletes all its related applications
BR-12	Direct bookings create an auto-accepted application with <code>isDirect: true</code>
BR-13	A talent cannot refer someone who is already accepted/rejected for the same event
BR-14	Verified status is automatically granted when a talent meets performance thresholds

BR-15	Passwords are never included in API responses
BR-16	Profile photos are stored as base64 data URLs (prototype) — production should use file storage

9. UI/UX Requirements

9.1 Design System

Token	Value
Primary Color	Coral/Salmon gradient palette
Background	Clean white with light gray borders
Card Style	White cards with subtle border, rounded corners (2xl)
Typography	System/Inter font stack
Border Radius	xl for inputs, 2xl for cards, full for avatars
Animations	Fade-in on page load, stagger on lists, pulse on loading

9.2 Navigation

Viewport	Navigation Type
Desktop (≥1024px)	Left sidebar (fixed, 256px width)
Mobile (<1024px)	Bottom navigation bar + hamburger slide-out sidebar

9.3 Component Library

Component	Description
Button	Primary, secondary, ghost, danger variants. Loading state with spinner.

Card	Container with optional hover effect
Badge	Status labels: primary, success, warning, danger, info, default
Input	Form input with label, icon support
Avatar	Profile image with fallback initials, sizes: sm/md/lg/xl
Modal	Centered overlay dialog with title, close button
Sidebar	Role-specific navigation with user info + logout
Navbar	Top bar with hamburger toggle (mobile)

10. API Endpoints

Current implementation uses in-memory mock functions. Below is the equivalent REST endpoint mapping for backend implementation.

Authentication

Method	Endpoint	Description
POST	<code>/api/auth/login</code>	Login with email/password
POST	<code>/api/auth/register</code>	Register new user

Talent

Method	Endpoint	Description
GET	<code>/api/talents/:id</code>	Get talent profile
GET	<code>/api/talents/user/:userId</code>	Get talent profile by user ID
PUT	<code>/api/talents/user/:userId</code>	Update talent profile

GET	/api/talents/search	Search talents with filters
GET	/api/talents/:id/history	Get talent event history
GET	/api/talents/:id/reviews	Get reviews for talent

Provider

Method	Endpoint	Description
GET	/api/providers/:id	Get provider profile
GET	/api/providers/user/:userId	Get provider profile by user ID
PUT	/api/providers/user/:userId	Update provider profile

Events

Method	Endpoint	Description
POST	/api/events	Create event
GET	/api/events/:id	Get event details
PUT	/api/events/:id	Update event
DELETE	/api/events/:id	Delete event
GET	/api/events/provider/:providerId	Get provider's events
GET	/api/events/open	Get open events (for talent browsing)

Applications

Method	Endpoint	Description
POST	/api/applications	Apply to event

POST	/api/applications/direct	Direct book talent
GET	/api/applications/event/:eventId	Get event applicants
GET	/api/applications/talent/:talentId	Get talent's applications
PUT	/api/applications/:id/status	Accept/reject application
POST	/api/applications/:id/excuse	Excuse from event

Attendance

Method	Endpoint	Description
POST	/api/attendance	Mark attendance

Reviews

Method	Endpoint	Description
POST	/api/reviews	Submit review

Referrals

Method	Endpoint	Description
POST	/api/referrals	Create referral
GET	/api/referrals/event/:eventId	Get event referrals

Admin

Method	Endpoint	Description
GET	/api/admin/users	Get all users
GET	/api/admin/events	Get all events
GET	/api/admin/talents	Get all talent profiles
GET	/api/admin/providers	Get all provider profiles
POST	/api/admin/users/:id/block	Block user
POST	/api/admin/users/:id/unblock	Unblock user
POST	/api/admin/users/:id/verify	Verify user
POST	/api/admin/users/:id/unverify	Unverify user

PUT	/api/admin/events/:id/status	Change event status
DELETE	/api/admin/events/:id	Delete event
POST	/api/admin/talents/:id/reset-excuses	Reset late excuses

11. Glossary

Term	Definition
SRS	Software Requirements Specification
FR	Functional Requirement
NFR	Non-Functional Requirement
BR	Business Rule
FK	Foreign Key
EGP	Egyptian Pound (currency)
MVP	Minimum Viable Product
CRUD	Create, Read, Update, Delete

Document End — Total: 55+ Functional Requirements, 16 Business Rules, 8 Data Entities, 30+ API Endpoints
